GEO-51T-105- Physical Geography

Code of Course	Title of the Course	Level of the Course	Credits of the Course
GEO-51T-105	Physical Geography	3	4
Types of the Course	* Delivery type of the Course		
Major	Lecture, 60 Lectures including diagnostic and formative assessments during lecture hours		
Prerequisites	Central Board of Secondary Education or Equivalent		
Objectives of the Course	To attain knowledge in detail about physical geography and associated branches.		

Duration- 3 Hours

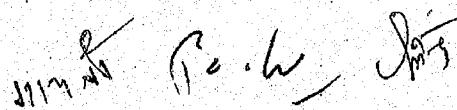

Max. Marks- 20+80

Min. Marks- 8+32

Pattern of Examination	Bifurcation of Marks
Part A	$10 \times 2 = 20$
Part B	$15 \times 4 = 60$
Total	80

***Note:**

1. Internal assessment will be as per University Norms.
2. End Semester Examination question paper will comprise of two parts: Part A and Part B.
3. Part A will comprise of TWO questions consisting Map Work and Multiple-Choice Questions (MCQs)/ Short Answer type questions.
4. Part B will comprise of FOUR descriptive questions with internal choice from each unit.
5. In all student will have to attempt total 6 questions, 2 questions from Part A and 4 questions from Part B.

 (3)

Semester-I

PHYSICAL BASIS OF GEOGRAPHY

Note :-

As per the instructions of Rajrishi Bharthari Matsya University, Alwar, all the colleges will complete mid-term exam and assignment work for internal assessment, the mark weightage of which is $10 + 10 = 20$ marks.

The main examination will have to be conducted as per the instructions of the university which is of 80 marks. The paper consists of two parts:

Part-I: It is of 20 marks and has 10 compulsory very short answer type questions. A total of 10 questions will be given in this part from all the units. Each question is of 2 marks.

Part-II: It is of 60 marks and a total of 08 questions will be given in the paper with 02 questions from each unit with internal option, out of which a total of 04 essay questions will have to be solved by selecting one question from each unit. Each question is of 15 marks.

Unit-I

Definition, Scope & Development of Physical Geography. Origin of the Earth- The Big-Bang Hypothesis; The Interstellar Dust Hypothesis. Geological History of the Earth. Origin of the Continents & Oceans- Continental Drift Theory; Plate Tectonic Theory. Interior of the Earth. Earth Movements -Endogenetic & Exogenetic. Isostasy - views of Airy; Pratt & Holmes. Volcanoes & Earthquakes.

Unit-II

Mountain Building Theories- Kober & Holmes. Rocks- Classifications & Characteristics. Denudation-Erosion & Weathering; Cycle of Erosion views of W.M. Davis & W. Penck. Drainage System & Pattern. Erosional & Depositional Work and Topographies of River, Underground Water, Glaciers, Wind & Oceanic Waves.

Unit-III

Composition & Structure of the Atmosphere. Insolation & Heat budget of the Earth. Horizontal and Vertical distribution of Atmospheric Temperature, Inversion of Temperature. Atmosphere Pressure, Pressure belts & Planetary winds. Mechanism of Indian monsoon and jet streams. Classification of Clouds and Precipitation. Types of Air Masses, Fronts & Cyclones. Classification of World Climate Koppen and Thorthwaite, General climatic classification.

Unit-IV

Definition, nature and Scope of Oceanography, Hydrological Cycle. Surface Configuration of Pacific, Atlantic and Indian Ocean's bottom. Horizontal and Vertical distribution of Oceanic Temperature and Salinity. Oceanic Movements- Tides, Waves and Oceanic Currents. Coral Reefs. Oceanic Deposits.

Semester - I

HUMAN GEOGRAPHY

Note :-

As per the instructions of Rajrishi Bharthari Matsya University, Alwar, all the colleges will complete mid-term exam and assignment work for internal assessment, the mark weightage of which is $10 + 10 = 20$ marks.

The main examination will have to be conducted as per the instructions of the university which is of 80 marks. The paper consists of two parts.

Part-I: It is of 20 marks and has 10 compulsory very short answer type questions. A total of 10 questions will be given in this part from all the units. Each question is of 2 marks.

Part-II: It is of 60 marks and a total of 08 questions will be given in the paper with 02 questions from each unit with internal option, out of which a total of 04 essay questions will have to be solved by selecting one question from each unit. Each question is of 15 marks.

UNIT -I

Introduction of Human Geography: Meaning, Definition, Nature, Scope and importance, Branches of Human Geography and its relation with other Social Sciences, Principles of Human Geography, Essential Elements of Human Geography: Brunhes and Huntington. Approaches to Human Geography: Environmental Determinism, Possibilism, Neo Determinism, Contribution of various scholars: Fredrick Ratzel, Miss Ellen Sample, Vidal de la Blache, Huntington.

UNIT -II

Human races: evolution and migration, Factors, Types and Consequences of Migration, Griffith Taylor's Migration Theory, zone-strata theory, classification of races: types, characteristics and distribution. Human races in India. Cultural regions; Race (Griffith Taylor's Classification)

UNIT -III

Bedouins

Tribes of the world: Eskimos, Bushman, Pygmy, Masai, Bedawins and Kirghiz. Religious and Linguistics composition of World Population. Tribes in India: Bhils, Nagas, Santhal, Gond, Gujar of Jammu and Kashmir and Toda. Their Social and Economic activities and adaptation in modern society. Population growth and theories, Distribution and Density of world population. Migration of Population: causes, types and impacts, Population regions and Population Policies in India. Problems of overpopulation in India and its remedial measures.

UNIT - IV

Rural settlements, factors affecting development of Rural Settlement, Types and Pattern of Rural settlements, Building materials and House types. Rural Development. Christaller's Central Place Theory, Trends and Patterns of Urbanisation of the World. Settlements- Types and Patterns. process of Urbanization, Urban problems in India, Impact of human activities on environment.

Code of Course	Title of the Course	Level of the Course	Credits of the Course
GEO-51P- 107	Practical-I	5	4
Types of the Course	Delivery type of the Course		
Major	60 contact hrs- Laboratory lectures and field study including diagnostic and formative assessments during lecture hours		
Prerequisites	Central Board of Secondary Education or Equivalent		
Objectives of the Course	To make the students understand about the relief features through scale and relief representation techniques.		

Duration- 4 Hours

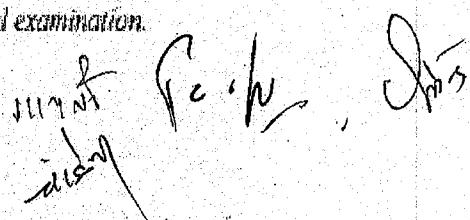

Max. Marks- 20+80

Min. Marks- 8+32

Pattern of Examination	Bifurcation of Marks	Time
Written Test	40	2 Hours
Field Survey and Viva-Voce	14+6	2 Hours
Record Work and Viva-Voce	14+6	

*Note-

1. The students will have to prepare *B4 Size Record Book* which will be simultaneously checked by the Teacher in the class after teaching and evaluated during the examinations.
2. There will be 8 questions (2 questions from each unit) in written paper out of which student have to compulsorily attempt 1 question from each unit.
3. The student will have to prepare Survey Sheet *INDIVIDUALLY* during the examination.
4. Simple Calculator is permitted in practical examination.

M. S. Geoh., J.P.S.
as per

Semester - I

Practical

Note :-

As per the instructions of Rajrishi Bhartrihari Matsya University, Alwar, all the colleges will complete mid-term exam and assignment work for internal assessment, the mark weightage of which is $10+10= 20$ marks.

The main practical examination will have to be conducted by an external examiner appointed by the university, which is of 80 marks.

There shall be 8 questions in written paper In 02 questions will be given from each unit. Candidates are required to answer a total of 4 questions, selecting one question from each unit. Each question is of 10 marks. Each practical batch of 30 students will be allotted 4 hours of teaching per week for practicals.

UNIT - I

Definition and types of scale: simple, comparative, diagonal. Graph: line graph, bar graph, combined line and bar graph.

UNIT - II

Study of Topographical sheets – Scheme of Indian topo-sheets, Interpretation of a hilly and a plain area of India in respects of relief, drainage, Human settlement, Transport & Communication Pattern.

UNIT - III

Climatic maps and diagrams – isopleth Maps (Isobar, Isotherms and Isohyets maps,) Simple and compound wind rose, climograph, hythergraph and climatograph, study & interpretation of weather maps of January & July months.

UNIT - IV

Surveying: Meaning, Classification and Significance, Applicability of Chain Survey, Chain Survey Tools, Factors Affecting Survey Station Selection, Line Types in Chain Survey, Offsets in Chain Survey , Chain & Tape Surveying: Open & Closed Traverse , Tie-line, Chain Survey Procedures. It's Problems and Solutions.

Syllabus

B.A. (Hons)

Examination 2023-24

Semester-II

PAPER-III:GEOGRAPHY OF RAJASTHAN

3hr.duration

Max.Marks80

UNIT - I

Rajasthan : Location; Physiographic Regions; Geological structure; Climate and Climatic regions; Drainage system and lakes; soil types and regions, erosion and conservation; Vegetation — types and distribution. Land utilization in Rajasthan. Agriculture-types and characteristics, production and distribution of food and commercial crops; Cropping pattern and Agro-climatic zones

UNIT - II

Importance and sources of irrigation; Major irrigation projects-Chambal, Mahi and Indira Gandhi Canal Project (I.G.C.P.)and Bisalpur dam project. Live Stock products and Dairy Development programs; Biodiversity and Wildlife; Waste-land and desert development programs. Distribution and production of minerals — Metallic and Non-metallic; Power Resources — Coal, Petroleum and Natural gas, hydro based and non-conventional power resources.

UNIT - III

Industrial Development : Classification of Industries; Development, distribution, production and locational analysis of cotton textile. Cement and stone industries; Cultural heritage and Tourism industry. Population : Distribution and density; Population structure- age and sex ratio, urban and rural, literacy and occupational population; Population growth since independence, causes, problems and solutions. Social and Cultural status of major tribes-Bhil, Garasiya, Meena, Saharia. Means of transportation — roads, railway network and highways.

UNIT - IV

Detailed study of Marusthal, Aravalli, Hadoti and Eastern Plain regions with following heads : Physical environment, social and cultural environment and economic development. Concept of Human Development — Major indicators. H.D.I. (Human Development Index) of Rajasthan in reference to other states of India. Status of Women in Rajasthan — changing aspects of demographic, social.economic, health and nutrition.

PAPER-IV: ECONOMIC GEOGRAPHY

3hr.duration

Max.Marks80

UNIT - I

Meaning and scope of Economic Geography, Concepts, Study of the geographical factors affecting economic activities, economic activities of man — Primary, Secondary, Tertiary. World Production and distribution of important crops- Rice, Wheat, Maize, Cotton, Tea and Coffee. Agricultural types and Agricultural Region of the world.

UNIT - II

Irrigation systems, Important minerals and their distribution (Iron, Copper, Aluminum). Power resources : coal, petroleum, natural gas, hydro electricity and non conventional power resources.

UNIT – III

Man's utilization of natural resources and conservation. Industrial regions of the world, Major manufacturing industries and their localization, Iron and Steel, Textile and Chemical. Study of economic region : Damodar Valley, Hoogly , Ruhr region, Great Lake Region, Kobe – Osaka and red basin.

UNIT - IV

World Trade and Transport, Trade and Trade Routes : Sea, Air and Pipe lines. OPEC, BRICS, WTO and Globalization, its effect on developing countries.

Syllabus

B.A. (Hons) Part-I PRACTICAL 2023-24

Semester-II

Duration: 4hr.

Max. Marks: 80

Unit-I

Methods of representation of relief-Hachures, hill shading, layer tint, Contours etc. Relief features, types of slopes, valleys, waterfall, Gorge, meanders, delta, plateau, conical hill, Ridge, Saddle & Pass to be drawn, with the help of contours shown in topographical sheets of different physiographic regions, profile drawing serial, superimposed, projected and composite.

Unit-II

Study of Topographical sheets — Scheme of Indian topo-sheets, Interpretation of a hilly and a plain area of India in respects of relief, drainage, Human settlement, Transport & Communication Pattern.

Unit-III

Climatic maps and diagrams — Isopleth Maps (Isobar, Isotherms and Isohyets maps), Simple and compound wind rose, climograph, hythergraph and climatograph, study & interpretation of weather maps of January & July months.

Unit-IV

Prismatic Compass Survey – Importance, Appliances, Methods : Radiation, Intersection, Traverse (closed and open traverse) correction of bearings and removal of closing error-Bowditch, graphical and mathematical method, Calculation of WCB, R.B. and calculation of included angles (CIA)

Three days Environmental survey camp of any village/town within Rajasthan state. Report should be prepared by each student separately and should be submitted in the form of hardcopy and PPT.
